Day-4 TCS-ION

21/5/2020

### Learn Corporate Telephone Etiquette.

- Clarity over the phone is must
- Engage in positive conversation
- Make the caller feel important
- Always keep a smile in your tone voice
- Listen to the caller patiently
- Be courteous and concise
- Engage in positive conversation
- Make the caller feel important
- Always keep a smile in your tone
- Ask for permission before putting call on hold
- Never sound harsh and uninterested
- Avoid shouting
- Never chew gum while talking
- Don't forget to take complete message for others
- Don't place the caller on hold unnecessarily or for long

### Understand Accounting Fundamentals.

- Basics of Accounting
- Accounting is a system which collects and process financial information of a business.
- Accounting Assumptions
- There are four accounting assumptions
  - Accounting Entity Assumption
  - Money Measurement Assumption
  - Accounting period principle

Assets are the resources that a company owns.

- Cash in bank
- Securities
- Motor vehicle / Real Estate

Assets Valuation:

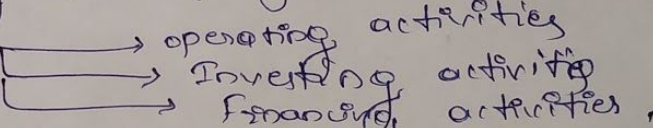

- Cost principle - To show assets at original cost when market value has increased.
- Conservation - The value may be decreased through this concept.

### Liabilities

→ Liabilities are obligations of the company to others

- Loan payable (loan from lenders)
- Interest payable
- Accounts payable

→ Shows inflows and outflows of cash and cash equivalents of a company.

Three Sections 

Understand Artificial Intelligence (AI) - part 1

### Gain Foundational Skills in IT

Basic IT skills

- \* Delight factor
- \* Algorithms \* Design patterns
- \* web Application flow.

Pointers

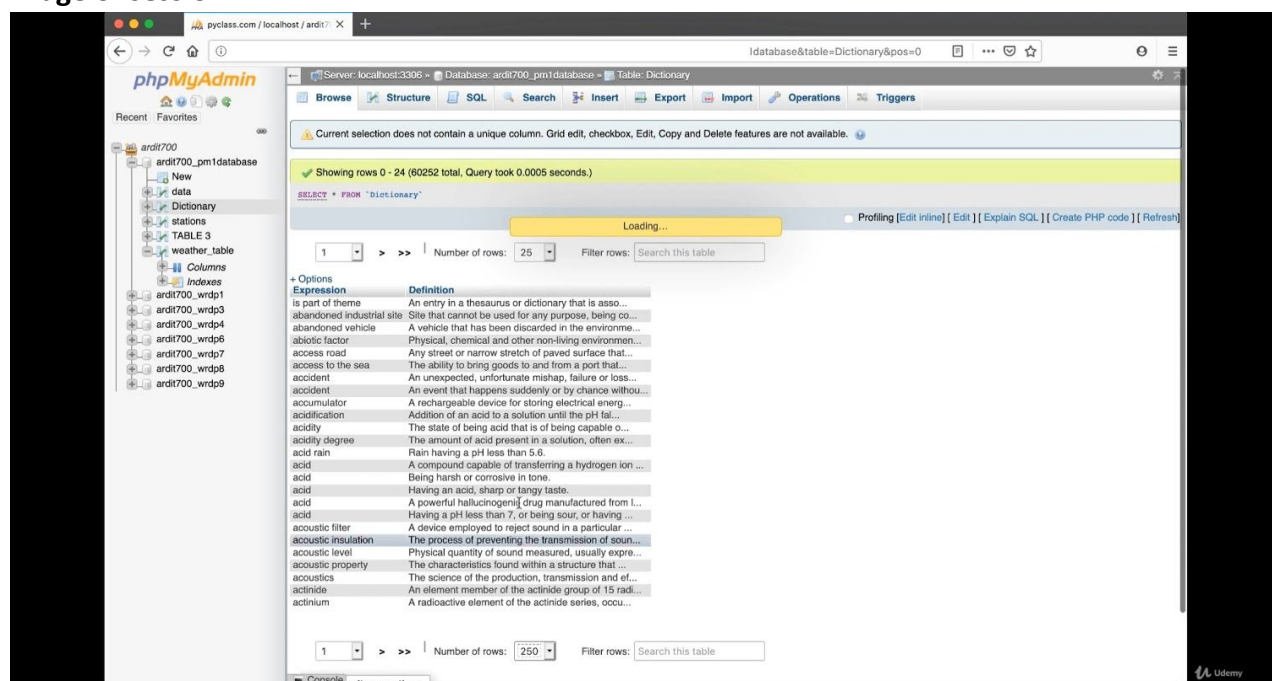

Basic of HTTP / web Application

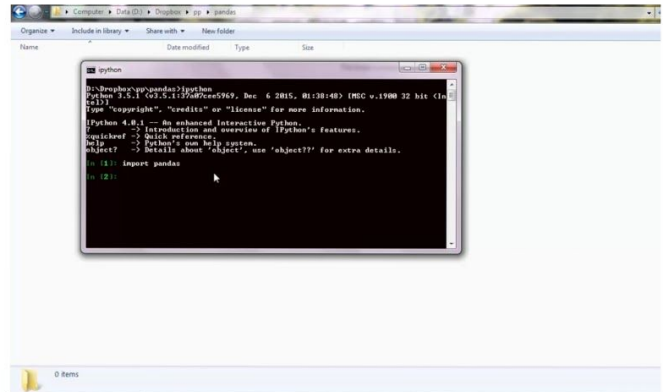

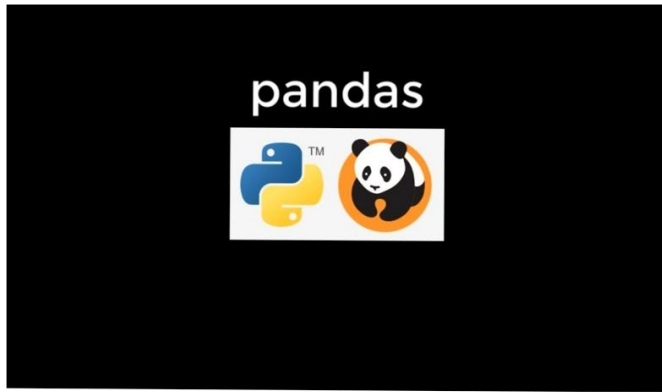

- IT competencies
- Basic of HTML/JS
- what do Recruiters expect
- \* Spend time on your final year project
- \* Communicate your technical strengths upfront
- \* Accept what you don't know

## Day-4 Python

Section 14 : Project Exercise with Python and MySQL  
Interactive English dictionary

→ Making the App

SQL statements

① query = cursor.execute

(\* select \* from Dictionary WHERE Expression

"select = From Dictionary of WHERE Expression LIKE 'JY'"

import MySQL connector

con = MySQL.connector.connect (

user = "audit foo - student"

password = "audit foo - student"

host = "108.164.140.122"

database = "audit foo - prindatabase"

)

## Section 15

② Data Analysis with pandas

→ pandas

→ Installing pandas

→ Getting started with pandas

→ Getting started with Jupyter Notebooks

→ Loading CSV files

→ Loading JSON files

Loading TXT file

- set Header Row
- set column names
- set Index Column

What is pandas?

pip install pandas or pip3 install pandas.

Loading Extra files  
module not found error. No modules named 'xlrd'.

pip install xlrd
